Also, there was no restriction on any claims.
So no need to mention that.

Thank you so much for your warnings and explanations.

I will try to follow the format. When I know how to do it or have an example, I do as close as I can.

I will be more careful and call the office and ask if something is not clear.

I can redo my letters if you point out my mistakes. I could also post my replied online on my web site (protected with a password) so that you are able to preview them on the web and tell me if something is not right.

By the way, you told me that you will fax a letter to me on last Thursday, but I never received it. I assumed that you are busy because of too much work before the holidays, but was going to call just to make sure that something did not get lost.

I am always available on my new cell 808-388-2210 and please feel free to call me at any time to clarify anything if the patent work requires so. I also check my email a few times per day if it is more convenient for you.

Again, I appreciate the extra time you spend explaining me how it works and what I should or should not do.

Best Regards,
- Igor K Voln

Make sure when you respond you always follow the format I sent you.
If you fail to and your response is not entered your application will go abandoned.
I noticed you did not send the response electronically last time.
You may get charge extension fees from the Office.

If you go abandoned you will have a huge fee to pay.
I can not help you on those issues.
That is between you and the Office.
I spent lots of time sending you the format and your did not follow it.
The Examiner can not respond for you.
You must follow the format.
And you must comply with the rules of the Office.

When you get the FAX then reply and follow the format.

Todd,

I hope you are having a good holiday season.

fax: (702) 993-5851 (area code is different because it is an E-FAX)

Please note that I am changing my phone # from 510-316-1268 to 808-388-2210
I have both lines right now, but carrying both phones with me is not very convenient.:)
